Mini Project Report - 02

Master of Computer Application – General
Semester – I

Sub: Front-End Frameworks And Technologies

Topic: STUDENT DETAILS
By
Name: SUHAS D J
Reg no.: 1340725050

Faculty Name: VEERA RAGHAV K

Faculty Signature: _____

Department of Computer Application
Alliance University
Chandapura - Anekal Main Road, Anekal
Bengaluru - 562 106

September 2025

LIST OF TABLES

INTRODUCTION

Education plays a vital role in shaping an individual's personality, knowledge, and career. To ensure smooth academic management, every educational institution maintains proper records of its students. These records are known as *student details*. They provide basic information about the student, such as registration number, name, course of study, contact information, and permanent address.

Maintaining student details is very important because it helps the institution identify each student uniquely and provide them with the necessary facilities. It also helps in keeping track of attendance, examinations, results, and communication with parents or guardians. Without such records, managing hundreds of students would be very difficult for any college or university.

In this report, we present the student details of **Suhas D J**, who is enrolled in the Master of Computer Applications (MCA) course. The details include personal information, academic enrollment, and contact details.

CONCLUSION

In conclusion, student details are an essential part of the academic system. They not only provide identity to the student but also help the institution manage records in an organized manner. For **Suhas D J**, the details clearly show his registration number, name, course, and contact information.

Such records prove useful for teachers, administrators, and even employers in the future. They ensure smooth communication, proper academic tracking, and easy verification of identity whenever needed.

Therefore, maintaining updated and accurate student details is necessary for every institution. It reflects the professionalism of the academic system and helps students like Suhas D J to have a clear and recognized academic identity.
